## VIRTUAL C-SUITE SERVICES

Providing world class leadership in technology, operations, security, and compliance requires experience, expertise, and innovation with cross-industry experience reducing cost, optimizing performance and improving operational efficiencies.

Citanex executive professionals can drive strategy, technology, innovation, and execution within your organization today.

With the ever-changing digital landscape and increasing threat of cyber incidents, need for dedicated Chief Information Security Officer, Chief Digital Officer, and/or Chief AI & Web3 Officer in your organization is clear. These roles provide predictive and preventative strategies that will optimize performance and avoid a catastrophic impacts. Companies that do not have these leadership roles in their C-Suite often present a red-flag to potential customers and investors. Supplanting these roles with a fractional executive from Citanex has tremendous benefits:

**Immediate Impact:** Seasoned executives to focus on the strategy and opportunities in technology, cyber, and others with minimal lead time.

**Subject Matter Expertise:** Decades of experience and execution across 21+ sectors and governments with a proven track record of working with executives and boards.

**Operational Efficiencies:** Implementation of process and strategy to optimize performance, reduce cost, manage resources, protect data.

**Flexibility:** Operating within budget and schedule providing high-level strategy down to project staffing and execution.

At Citanex, we excel in Technology Strategy and Execution:

- C-level and Board-level Strategy Alignment
- AI & Web3 Strategies
- Big Data
- Risk Mitigation Strategies
- Sustainability
- Governance, Policies, and Controls
- Organization building and on/off shore resource management
- Optimize performance and eliminate waste
